Life Science Field Investigations: California Academy of Sciences

Spend a day at the new California Academy of Sciences exploring a single building that evokes the interdependence of Earth, ocean and space, and that houses an aquarium, a planetarium and a natural history museum. Explore a fascinating place that's filled with hundreds of innovative and engaging exhibits and thousands of animals. Count the number of teeth on the albino alligator; catch insects with a virtual butterfly net; rocket through the galaxy at warp speed; and so much more. Students participate in several hands-on science activities.

March 3, 2010 (SIGN-UP BY THURSDAY, FEBRUARY 25)

Cost: No cost to students

This Field Trip is required for all Biology students.

Yes, I plan to participate in this Field Trip. Please reserve a place for me.
